

MPH-Summer Internship Program Opportunity 2022

Hello,

We offer a unique **platform** for international students that will share knowledge with local students and communities and get more experience through **“Global Health Initiative Program” Tanzania**

We are Community Volunteer Services Tanzania (CVS-Tanzania) a Tanzania National registered NGO, based in Tanga City, Tanzania and working on Community based Sexual and Reproductive Health and Rights (SRH&R) information, products and services including **Menstrual Hygiene Management (MHM) information**, products and services. www.cvstanzania.or.tz

Girls and young women in Tanzania face a myriad of Menstrual Hygiene Management (MHM) challenges, lack of information, products and services, for this reason, we request for partnership with your university/college in implementing a project on Menstrual Health Management in rural secondary schools in Tanga region in Tanzania through your students. We recommend if appropriate a number of students from your university be selected and come to Tanzania as part of their internship or field practice based on what they have been learning. This will give them global experience with regard to health, education and other social-economic activities, your students taking Public health or any other relevant field may be attached to our organization for that purpose.

The participating international students will be involved in variety of activities which include collection and assessment of data from the schools, awareness creation to the schools and communities, groups discussion facilitation, findings documentation and sharing their experiences globally.

This programme is designed to take place in 2022 Summer (June-August) and Winter (December-February) seasons. Currently, we are recruiting students/Interns for the Summer season programme which will take place from **12 June to 13th July, 2022**. We encourage to receive and host Interns/students into 5-10, 11-20 and 20-25 groups of persons. The number of groups are set in order to avoid unnecessary cost and time loss.

If you are interested in this **“Summer program 2022”** contact us through email: cvstanzania@gmail.com
